

Following his lecture at The Magic Circle, magician Matt Johnson gave a **thoroughly enjoyable** two hour lecture to the members and guests of Ilford Magical Society.

The lecture included aspects of close-up, comedy and stage magic with Matt explaining in detail several of his own inventions and takes on 'standard' magic effects. Cards, sponges and mobile phones were just some of the featured items in the lecture.

The "Ilford People" performing YMCA

Matt then invited several members to join him at the front to help him with a stage effect: little did they know what to expect! Matt and helpers then performed his 'trademark' effect involving cards and hats to the tune of YMCA.

A great evening was had by all!
